DETAILED ACTION

Response to Amendment

The corrected Figure 2 drawing, and correction to the specification have been entered. Additionally the amended claims have been entered where the Applicant canceled claims 3 and 4, and claims 5-7 were added.

Allowable Subject Matter

Claims 1,2, and 5-7 are allowed. The following is an examiner's statement of reasons for allowance: The prior art does not directly disclose nor would it have been obvious to one of ordinary skill in the art at the time of invention to make such modifications to existing art.

Regarding claim 1, a second latch circuit for receiving an output signal of said first latch circuit and latching the output signal of said first latch circuit in response to an unasserted latch stop signal when a test signal is in the active state.

Regarding claim 2, as being dependent on claim 1.

Regarding claim 5, a master latch circuit for receiving a data signal and a latch stop signal and latching the data signal in response to the unasserted latch stop signal, where the latch stop signal is unasserted when the test signal is in the active state.

Regarding claim 6, as being dependent on claim 5.

Regarding claim 7, wherein the second latch stop means is coupled to the third latch circuit; and said first and second transparent latch circuits are alternately interconnected.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
